Introduced in 2018 and authorized by Public Law 115-197, the American Innovation® \$1 Coin Program is a multi-year series featuring distinctive reverse (tails) designs that pay homage to America's ingenuity and celebrate the pioneering efforts of individuals or groups from all 50 states, the District of Columbia, and the U.S. territories.

The 2022 American Innovation Kentucky \$1 Coin design recognizes the invention of bluegrass music. Bluegrass has roots in traditional English, Scottish, and Irish ballads and dance tunes, as well as in traditional African American blues and jazz. The reverse (tails) design features a banjo, an important bluegrass instrument, tilted to one side, alluding to the rhythm and movement of the music. Inscriptions are "UNITED STATES OF AMERICA," "BLUEGRASS," and "KENTUCKY." The design was created by United States Mint Artistic Infusion Program (AIP) Designer Christina Hess and sculpted by Mint Medallist Artist Renata Gordon.

The obverse (heads) of all coins in this series features a dramatic representation of the Statue of Liberty in profile with the inscriptions "IN GOD WE TRUST" and "\$1." It also includes a privy mark of a stylized gear, representing industry and innovation. AIP Designer Justin Kunz created the design, which was sculpted by Mint Medallist Artist Phebe Hemphill.

Incused on the coin's edge are "2022," the mint mark, and "E PLURIBUS UNUM."
